

WHAT IS CLAIMED IS:

- 1 1. A method of controlling the communication of
- 2 television programming at a television transmission station,
- 3 said method comprising the steps of:
 - 4 receiving television programming from a plurality of
 - 5 television programming sources;
 - 6 receiving programming communication instructions
 - 7 designating for each unit of television programming at least
 - 8 one from the group consisting of:
 - 9 (a) an output channel to be used in communicating
 - 10 said unit of television programming; and
 - 11 (b) the time said unit of television programming is
 - 12 to be communicated; and
 - 13 communicating each unit of television programming from
 - 14 said transmission station to at least one subscriber according
 - 15 to said programming communication instructions.
